

## **BITS F111 Thermodynamics**

### **Comprehensive Re-exam: Pattern and Instructions**

**24/02/2021**

Dear students,

As you are aware that the BITS F111 Thermodynamics comprehensive re-exam is scheduled for 28/02/2021 (Sunday), 11 am - 1 pm, the necessary instructions for the same as follows:

1. The exam would be for *two* hours and *119* marks.
2. The complete paper would comprise of multiple-choice questions with negative marking.
  - You have to select the most appropriate (nearest magnitude) answer.
  - Each question would have a unique answer.
  - Each wrong answer will bring you a penalty of 25% of the marks allotted to that question, i.e., a wrong answer for a question of 2 marks will bring a penalty of 0.5 marks.
  - The question may vary in the range of 2 to 5 marks.
  - It may also be possible that a long question of about 15 marks would be asked with various parts to it and the right answer to each part has to be chosen from the given options.
3. The exam would be *open book* in nature:
  - You may use the e-copy of the book and the handwritten notes. **Use of solution manual during the exam is strictly prohibited.**
  - A physical copy of the book and handwritten notes are also permitted.
  - Use of a physical calculator or an on-screen (system inbuilt) calculator is permitted.
  - Use of a secondary device (any device other than the one, on which the exam is being attempted) such as mobile/ipad/tablet is not allowed during the exam.
4. The exam would be Proctored through Mercer Mettl, the link for the same would be shared few hours before the exam.
  - Keeping track of the time is the candidate's responsibility. The proctors may or may not warn you of the same during the exam.
  - It is mandatory to be present in the mettl proctoring during the exam. Merely attempting the exam in Nalanda without being present in mettl will be treated as an absence in the exam.
  - Browsing during the exam (except Nalanda) or the use of any social media or communication app (even if running in the background) during the exam would be treated as malpractice and strict action would be taken as per AUGSD norms.
5. The exam would be conducted through the Nalanda-AWS and may involve sequential navigation in a set of 2-3 questions.

**NOTE: Any student who is not able to participate in the re-exam scheduled on 28/02/2021 due to pre-planned activity may apply for the recheck via the AUGSD portal.**

Best wishes,

Amit Jain
